

Product Description

SX5 XLR Product Bulletin: May 5, 2021

Product: Skorpio™ X5

Expected Public Announcement:

Expected General Availability:

- Skorpio X5 contact charging
- Skorpio X5 wireless charging and 3 Slot Dock with contacts
- 3 Slot Dock wireless charging
- Skorpio X5 XLR

May 10, 2021

SKORPIO™ X5 IS MORE!

OVERVIEW

Datalogic's Skorpio X5 is the next powerful generation of Datalogic's key-based mobile computers to face the toughest Enterprise challenges in data capture.

Lightweight, ergonomic, fully rugged and with plenty of different configurations and differentiating features, the Skorpio X5 is the perfect business companion for professionals in different markets, including Retail, T&L and Manufacturing. Its superior performance allows it to support multiple applications in various environments, from distribution centers to retail stores and manufacturing plants. The options to choose between 2 convertible form factors, 4 scan engines, 3 keyboard layouts, 2 charging technology and 2 memory configurations allows our customers to have a tailored solution to solve their needs.

Packed with the latest technology, the Skorpio X5 is equipped with the largest high visibility 4.3" display in its class, providing plenty of space for the most modern applications. It is powered by the market leader Qualcomm Snapdragon® 660 platform running at 2.2 GHz, the latest Google OS Android™ 10 with Google Mobile Services (GMS) and it is validated by Google as an 'Android Enterprise Recommended' (AER) rugged device.

Fully rugged in the most demanding environments, the Skorpio X5 features a 1.8 m / 6.0 ft drop resistance and an IP65 sealing grade. With the dedicated rubber boot, the resistance is even more increased.

With the Standard 3500 mAh or the High Capacity 6200 mAh battery, hot swappable battery technology and Datalogic's smart Battery Management application, Skorpio X5 can guarantee 24/7 operations with no interruptions in the most demanding and scanning intensive applications.

Product Description

This innovative device, designed and developed to withstand the most demanding environments, also incorporates (as an option) Datalogic's industry-first wireless charging system for ultra-reliable contactless charging, being the first device to introduce this future-proof technology in this class of device.

TARGET INDUSTRY APPLICATIONS

| INDUSTRY | SUB-INDUSTRY | BUSINESS PROCESSES / APPLICATIONS |
|------------------------------|---|--|
| Retail | Grocery, Non-Food, Back office / warehouse | Price Check and Updates, Store Inventory, Store Replenishment, Online Order Fulfillment, Retail Front- End (Mobile POS, Assisted Sales), Workforce Management, Inventory, Receiving, Picking |
| Transportation and Logistics | 3PL, Airports Courier, Postal, | Receiving, Put-away, Picking, Order Fulfillment, Replenishment, Forklift operations, Truck loading/unloading, Inventory Management, Returns Management, Baggage Management |
| Manufacturing | Intralogistics, manufacturing floor | Intralogistics (Receiving, Put-away, Inventory management, Picking, Shipping), Work Order Management, Quality Control & Traceability, Kitting, Planogram Compliance, Technical Documentation / Schematics. |
| Healthcare | HC Distribution, Manufacturers, Hospitals and Pharmacies | Receiving and quality check, Warehousing, Inventory Management, Order Fulfillment, Returns Management, Shipment batch tracking |

FEATURES AND BENEFITS

| PRODUCT FEATURES | BENEFITS FOR CUSTOMER |
|--|---|
| POWERFUL AND STATE-OF-THE-ART PLATFORM | Powerful market leader Qualcomm Snapdragon 600® platform and 2.2 GHz CPU delivers high-end computational power to smoothly run the most demanding mobile applications and several applications at once. It ensures the necessary support and availability in order to match the most demanding requirements of enterprise applications. |
| BEST-IN-CLASS DISPLAY | The Skorpion X5 feature a 4.3" display, one of the largest in its category and larger than the main competitors. This translate into a better visibility and higher productivity by the end user. The high visibility display perfectly fits in external environments, making the Skorpion X5 suitable for sunlight operations. |
| ERGONOMICS | 2 Form Factors with an attachable handle. The attachable handle allows to change form factor as customer's needs change or evolve and unlike some competitor's device with not convertible form factor it brings an extra flexibility to the solution. Light weight, ergonomic and perfectly balanced Skorpion X5 reduces end user fatigue during the all-day use of the device. It is possible to tailor the solution to the specific end user ergonomic needs using all options available. Can be stored in a belt holster accessory when not used. |

Product Description

| | |
|--|---|
| 3 KEYBOARD LAYOUTS | Customer can choose between 28-keys numeric, 38-keys function and 47-keys alphanumeric keyboards, allowing the user to tailor the specific application and operational needs. Plenty of scan key options: 2 side, 1 central, trigger (pistol-grip version) or bottom (handheld version) will allow the user to scan in the most desired way. |
| STANDARD AND EXTENDED REPLACEABLE BATTERY | Skorpio X5 features replaceable battery with hot swappable technology. Additionally, the option to choose between the Standard 3500 mAh or High Capacity 6200 mAh battery and the Datalogic smart Battery Management application, allowing customers to run 24/7 operations with no interruptions in the most demanding and scan-intensive applications. The capacities and industrial design of the batteries have been specifically designed to satisfy the user needs in terms of duration, without adding extra bulkiness or weight to the final solution. |
| 2 CHARGING OPTIONS | A full contactless device with state-of-the-art 15-watt Wireless Charging or an industry standard pogo-pin connector device that also allows Ethernet connectivity within the Skorpio X5 cradle. The contactless version will allow customers improving their TCO by noticeably reducing the cost of repairs. The 3 slot dock Wireless Charging will optionally feature the Datalogic exclusive Locking System, preventing possible theft and ensuring a one-to-one assignment between user and device. |
| SCAN ENGINE CHOICE | The fast and reliable professional scan engines can read 1D and 2D codes. Customers can choose between Linear Imager, Standard 2D Imager, 2D Mid-Range Imager and a near-far top performing Extra Long Range (XLR). The proprietary Datalogic decoding libraries can decode any type of codes in a fraction of a second. The Mid-Range scan engine bring to our customers an extra choice compared to main competitors, specially fitting in Retail and Logistics applications where extra-long range versions are too much performing and expensive but a need of scanning up to 1.5-2 m (depending on the barcode dimensions) introduce big savings in terms of productivity and ergonomics. The near-far Extra Long Range perfectly fits in all the applications where the same device must read at different distances reaching up to 20 m on long distance dedicated barcodes. |
| ANDROID 10 | Android 10 offers one of the best user experiences in the Android environment, while maintaining a strong device security and stability. End users will benefit from an updated OS with a guaranteed future proofing minimum of 2 main OS upgrades. |
| GOOGLE GMS AND ANDROID® ENTERPRISE RECOMMENDED | Skorpio X5 supports the GMS (Google Mobile Services) suite for Google applications and APIs. It is a top-class rugged PDT in the industry and belongs to the Google AER program, supporting a curated list of enterprise requirements as specified by Google in terms of hardware, software and support. Google GMS and compliance with Google AER ensure latest user experience, security and investment protection. |

Product Description

| | |
|-----------------------|---|
| FULLY RUGGED | Skorpio X5 is a fully rugged keyboard device that can withstand accidental drops and work in the harshest of environments. It can sustain repeated drops up to 1.8 m / 6 ft onto concrete while supporting dust and water up to IP65. Gorilla Glass® protects the display against accidental damages. Given his ruggedness specifications Skorpio X5 greatly contribute to reduce repairs and maintenance cost then lowering TCO for the customer. |
| BULLET PROOF SECURITY | Datalogic Shield is the software service from Datalogic that extends the lifecycle of our Android products, offering our customers years of protection on their rugged device investment. Offering includes: <ul style="list-style-type: none">• Recurring Android security patches on a regular basis• Minimum 2 Android major version upgrades• 1 yr. patch support for prior versions for a smooth transition• Regular firmware updates providing incremental improvements and bug fixes Datalogic Shield is included with all EASEOFCARE contracts for the Skorpio X5. Datalogic Shield is also available for purchase as a 'software-only' contract. |

BEST FEATURE 1 DETAILS

OS and Platform

IMPACT ON USER EXPERIENCE

- Android 10 with GMS (Google Mobile Services) and AER (Android Enterprise Recommended) certification will allow the best user experience for the most demanding customers. An AOSP (Android Open Source Project) version is also available.
- Qualcomm Snapdragon 600® platform and 2.2 GHz CPU delivers high-end computational power and ensures the necessary support and availability in order to match the most demanding requirements of Enterprise applications.

BEST FEATURE 2 DETAILS

Ruggedness

IMPACT ON KPI

- Drop Resistance Certified up to 1.8 m / 6 ft onto concrete while supporting dust and water up to IP65.
- Gorilla Glass® protects the display and scan window against accidental drops.
- Drop resistance can be further increased with the use of the optional rubber boot.

BEST FEATURE 3 DETAILS

Best in class display

IMPACT ON KPI

- 4.3", WVGA: such specs are clearly superior to competition ensuring the best in class readability and the user experience.

Product Description

- Larger display allows the user to run more features rich applications or have a clearer and more easily readable screen in simpler apps.
- Top high brightness screen enables high readability and comfortable reading in any lighting condition, indoor and outdoor.

BEST FEATURE 4 DETAILS

Scan engine choice

IMPACT ON KPI

- The possibility of choosing between 4 different scan engines allows customers to satisfy their scanning needs in a more adjusted way compared to competitors that only offer 3 options.
- The Mid-Range imager perfectly fit in those applications where an extra reading performance in terms of depth of field respect to the standard range is needed. Typically, in retail it greatly increases the ergonomics allowing the user to read from a standing position on both bottom and top level of the shelf. In the warehouse the longer reach is appreciated in applications such as reading from forklift or cross docking pallet operations.
- The near/far Extra Long Range (XLR) excels at long distances and it's the best option when needing to cover the full near to far spectrum in terms of reading distances. It is featured with top level snappiness and reading capabilities even on damaged, poorly printed, dirty or covered with shrink wrap barcodes. The best fit for the warehouse, the XLR models come prepared for logistic operations with 4G RAM, pistol grip and high capacity battery pack.

The XLR models are not provided with the rear camera but feature the ability to take pictures with the scan engine.

Product Description

| Customer Benefit | Feature | | Reasoning |
|--|---------------------|---|--|
| Run smoothly the most demanding mobile applications | Platform | Qualcomm SD660 Octacore at 2.2 GHz | Computational Power superior to the competition ensures the necessary support and availability to match the highest requirements of Enterprise applications. Running smoothly even several applications at once |
| | Memory | up to 4 GB / 64 GB | |
| Robust device that withstands harsh environments and mistreats by users | Ruggedness | IP65, 1.8 m drop, Gorilla Glass protection | Higher specifications than competition contribute to reduce downtime, maintenance time/cost and improve TCO. |
| Clear readability for feature-rich applications in any light condition | Display | 4.3 in, High Brightness | Bigger Display allows the user to run more feature-rich applications or have a cleaner and more easily readable screen in simpler apps. High brightness screen enables high readability and comfortable reading in any light condition, indoors and outdoors. |
| Hassle-free Wi-Fi Connection and Roaming | Wi-Fi Connectivity | IEEE 802.11 a/b/g/n/ac and 802.11 d/e/h/i/k/r/v/w/mc with MIMO | Complying the latest Wi-Fi Standards ensures a smooth connectivity experience reducing downtime and technical support time to solve issues. |
| Reliability of the charging solution and reduction of failures due to contact damage | Charging Technology | Wireless Charging, 15W fast charging | Wireless Charging is a unique feature in the market that ensures the reductions of downtime due to contacts failures (the n°2 reason of failure in Mobile devices!). Additionally, it brings ease of use, reducing mispositioning in the charging dock that results in no charge. |
| Full day productivity with no interruptions | Battery | Standard 3.500 mAh and Extended 6.200 mAh Battery packs supporting Hot Swap | Hot Swappable technology and high capacity battery allow Customers to run 24x7 operations with no interruptions in the most demanding and scanning intensive applications. |
| Reduce theft of devices, ensure a one-to-one assignment between user and device | Dock | Locking option on the Wireless Charging 3 Slot Dock | This unique feature, coming from Datalogic long time experience in Retail, bring a new and differentiating way to have full control on the MC assets also in the warehouse. |
| Reliable and smooth scanning experience at any reading distance | Scan Engines | 1D imager, 2D imager Std. Range, 2D Imager Mid-Range (White Illumination) with Green Spot and 2D imager near/far Extra Long Range (XLR) | The Datalogic superior Scanning experience, with specific illuminators and Green Spot feedback in conjunction with a complete choice of scanning options. Adding the Mid-Range Scan Engine to the offer Datalogic exceed the offering of the competition. The near/far Extra Long Range will cover all the logistics applications with specific needs in term of extended reading range. |

Product Description

| | | | |
|----------------------------------|--------------------|---|---|
| Improve TCO of the full solution | Battery Management | Configurable charging profiles and status LEDs on the battery | The spend in battery replacements are an important factor when measuring the TCO. Datalogic Smart Battery management application and Configurable Charging profiles ensures the battery lifetime can be optimized and predictable. The LEDs on the back of the battery shows the battery status at every swap and on demand by pressing the release button. |

DEMO KITS

Datalogic is introducing some promotional kits bundling the Skorpion X5 device together with its Single-Slot Dock, Power Supply and Rubber Boot. Such kits offer an 'All-In-One' solution for Datalogic partners and customers, providing an alternative for promotional and sales activities.

| PART NUMBER | DESCRIPTION | AVAILABILITY |
|-------------|-------------------------------------|---------------------|
| 943500057 | SKORPIO X5 Kit Handheld (943500009) | Currently available |
| 943500058 | SKORPIO X5 Kit Pistol (943500029) | Currently available |

The kits include the following: 94A150107 (Skorpion X5 Single Dock with contacts), 91ACC0048 (Skorpion X5 Docks & Multi Battery Charger Power Supply), 94ACC0323 (Skorpion X5 Rubber Boot HH & Gun, 94ACC0050 (Belt Holster, Skorpion). The kits do not include the country specific power cord to be purchased separately.
