CARD INSTALLATION

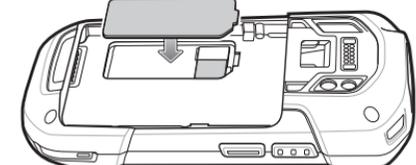

MicroSD Card Installation (Optional)

1. Lift the access door.
2. Insert the microSD card into the card holder. Push the card all the way into the card holder.

NOTE:
Proper position of the microSD card — the card connector (i.e., gold contacts) should be facing down.

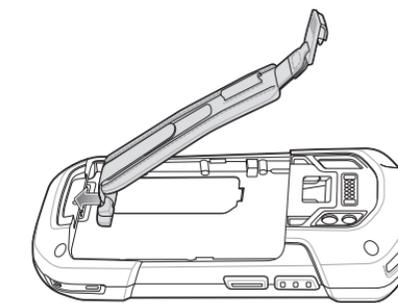

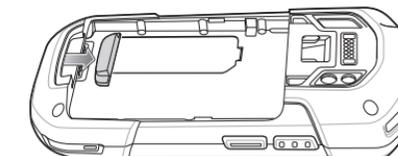

3. Replace the access door. Ensure that it is properly seated.

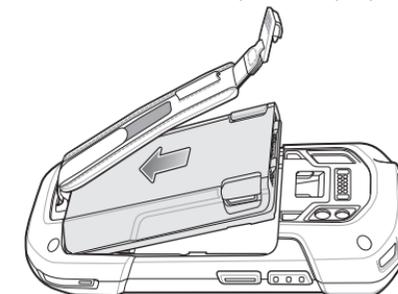

HANDSTRAP AND BATTERY INSTALLATION

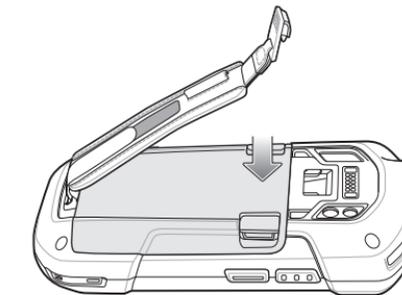

1. Remove hand strap filler plate.
2. Insert the hand strap plate into the handstrap slot.

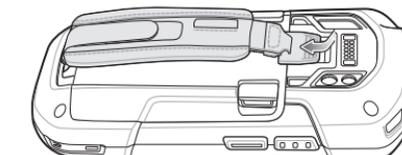

3. Insert the bottom of the battery into the battery compartment.

4. Rotate the battery down into the battery compartment and press the battery down until it snaps into position.

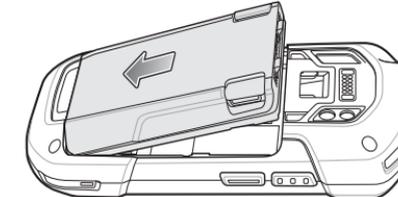

5. Place the hand strap clip into the hand strap attachment slot and pull down to lock into place.

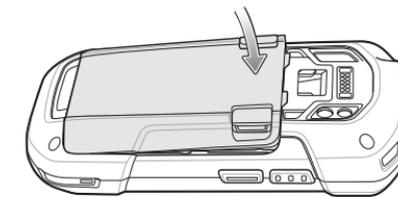

6. Lift the hand strap ribbon off the hook material.
7. Slide the pad and adjust the ribbon for best fit.
8. Press the ribbon down to secure to hand strap.

BATTERY INSTALLATION

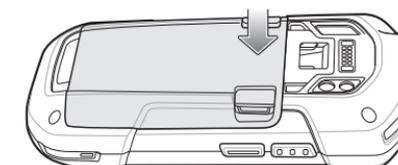

1. Insert the bottom of the battery into the battery compartment.

2. Rotate the battery down into the battery compartment.

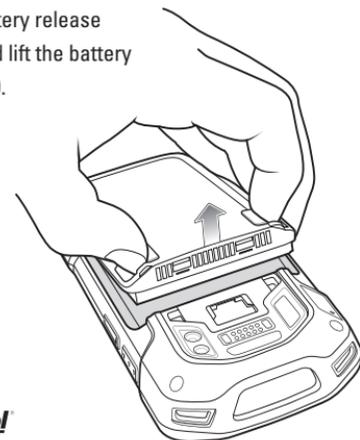

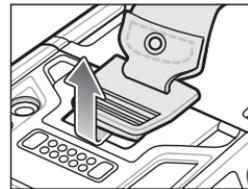

3. Press the battery down until it snaps into position.

BATTERY REMOVAL

1. Press the Power button until the menu appears.
2. Touch **Power Off**.
3. If installed, unlatch the hand strap. Push the hand strap clip up toward the top of the TC70 and then lift.
4. Press the battery release latches in and lift the battery from the TC70.

DATA CAPTURE OPTIONS

Imaging

1. Ensure that an application is open and a text field is in focus (text cursor in text field).
2. Point the exit window at the bar code.
3. Press and hold the **Scan** button.
4. The red laser aiming pattern turn on to assist in aiming. When the TC70 decodes the bar code the Data Capture LED light green and a beep sounds.
5. Release the **Scan** button.

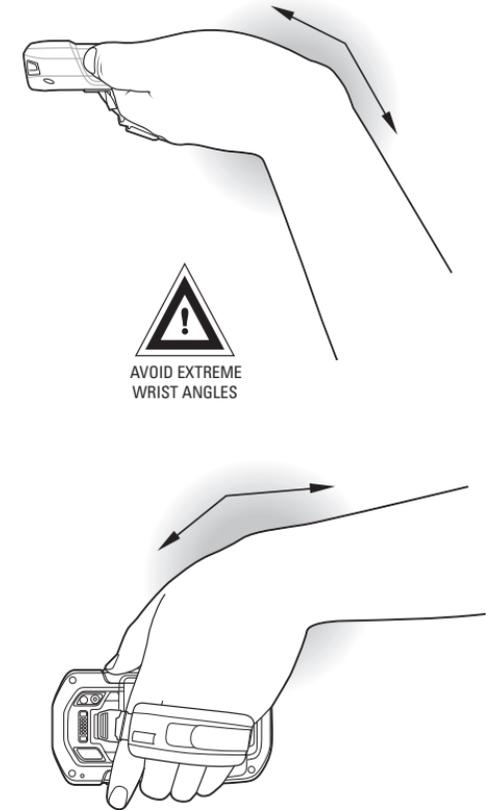

Camera Photo

1. Touch **Camera**.
2. Point the TC70 at an object.
3. Touch the on-screen shutter button.
