## Ultra-Rugged Mobile Computer

Honeywell offers a true no-compromise solution with the CK75 Ultra-Rugged Mobile Computer. In addition to being 31% smaller and lighter than any other form factors in its class, the CK75 mobile computer is optimized for warehouse and distribution environments with premium, industrial-grade materials for the perfect balance of ruggedness and duty cycle, along with features that focus on enabling flexibility and agility, even in the most extreme conditions. Extend the use of the CK75 mobile computer into cold storage and freezer environments with the heater-equipped Cold Storage CK75 Mobile Computer.

When workload demands shift unexpectedly, the CK75 mobile computer gives workers the flexibility to quickly transition to tasks that require near or far scanning, speech, voice and image capture, without wasting time finding and reorienting themselves on unfamiliar devices. Because the CK75 mobile computer supports Honeywell wired or wireless headsets and voice software, customers have the option of traditional or voice-enabled workflows. With a dual-band 802.11 a/b/g/n WLAN radio, the CK75 mobile computer delivers rock-solid performance and consistently fast response times, even in areas where you might experience low signal levels or intermittent connections.

The CK75 mobile computer also offers unparalleled deployment flexibility, allowing the choice of Windows® Embedded Handheld 6.5 or Android™ 6 operating systems on a single device. Today's Windows Embedded Handheld 6.5 users can continue to deploy CK75 mobile computers into their existing applications running existing software. When the time comes for a transition to new applications based on Android, the CK75 units can be converted to Android 6, saving the investment in computers and peripherals.

Smaller and lighter than others in its ultrarugged class, the CK75 mobile computer is optimized for warehouse and distribution environments with premium, industrialgrade materials and next-generation features for maximum business agility.
